

Easy order - Complete system offering

The Visio® Bath Concept is not only a visionary jet, but a complete system for whirlpools which includes both jets, air control, pump and suction systems. The Visio® Bath Concept is ideal for harness production.

We have made an offering of kits, that makes it simple and easy for you to implement Visio® in your production.

Choose the kit that matches your demand or send us your special inquiry and we will send you complete kits with each system packed individually.

Article no.	Description	80-6000-11	80-6001-11	80-6010-11	80-6011-11
